

COMPACT CEILING SPEAKER 6W/10W FYC-108

🔊 Descriptions & Features

※ The compact ceiling speaker FYC-108 can deliver incredible stereo sound to any room or commercial applications, from speakers you can barely see by being installed directly overhead, without having to sacrifice any wall, floor, or shelf space.

※ Easy to install, requiring only that you cut a hole, feed the wires through, and simply drop the speaker by letting the spring clamps seize the ceiling with no extra assembly or mess.

※ This speaker is ideally suited for installation in areas for the sound reproduction of reading announcements, declaring states of emergency, and playing background music such as shopping malls, restaurants, metro stations, hotels, coffee bars etc.

※ Full-range 8", 10W dual-cone dynamic speaker.

※ 100 V line transformer features two taps for 6 W and 10 W outputs.

※ This technique of line input 100V reduces signal losses on a longer distance and allows easy parallel connection of multiple loudspeakers.

※ Also 8 Ohm input is available without transformer.

※ Frame-mounted spring-loaded clamps provide secure, low-noise connections and easy installation.

※ Attractive color ABS resin finish with white grille suits any decor.

🔊 Specifications
