DESIGN CONCEPT | 设计理念

宴会厅的理念是“设计时空的气息”。运用“树枝末梢”交织重叠的点点光芒汇聚成满斗的繁星，让宴会厅在有限的空间里焕发出无限的星辰活力。每一处伸展的枝节虽不尽相同，却又同样精巧，装点着酒店匠心独运、雍而别致的尊贵气质。

The design idea of the banquet hall is "to design the breath of time and space". Using the overlapping lights of twigs to converge into stars, which radiates unlimited vitality in the limited space of the hall. Though each branch is not the same, it is equally exquisite, presenting the uniqueness, elegance and magnificence of the hotel.

DESIGN CONCEPT | 设计理念

多功能厅以“让光线自己说话”为主题。当灯亮起时，光束从上流泻而下，既能照亮多功能厅的明亮，又能构建多维立体的空间。纵横互通的线条可以轻松营造视觉焦点，展现出设计的细节美感。

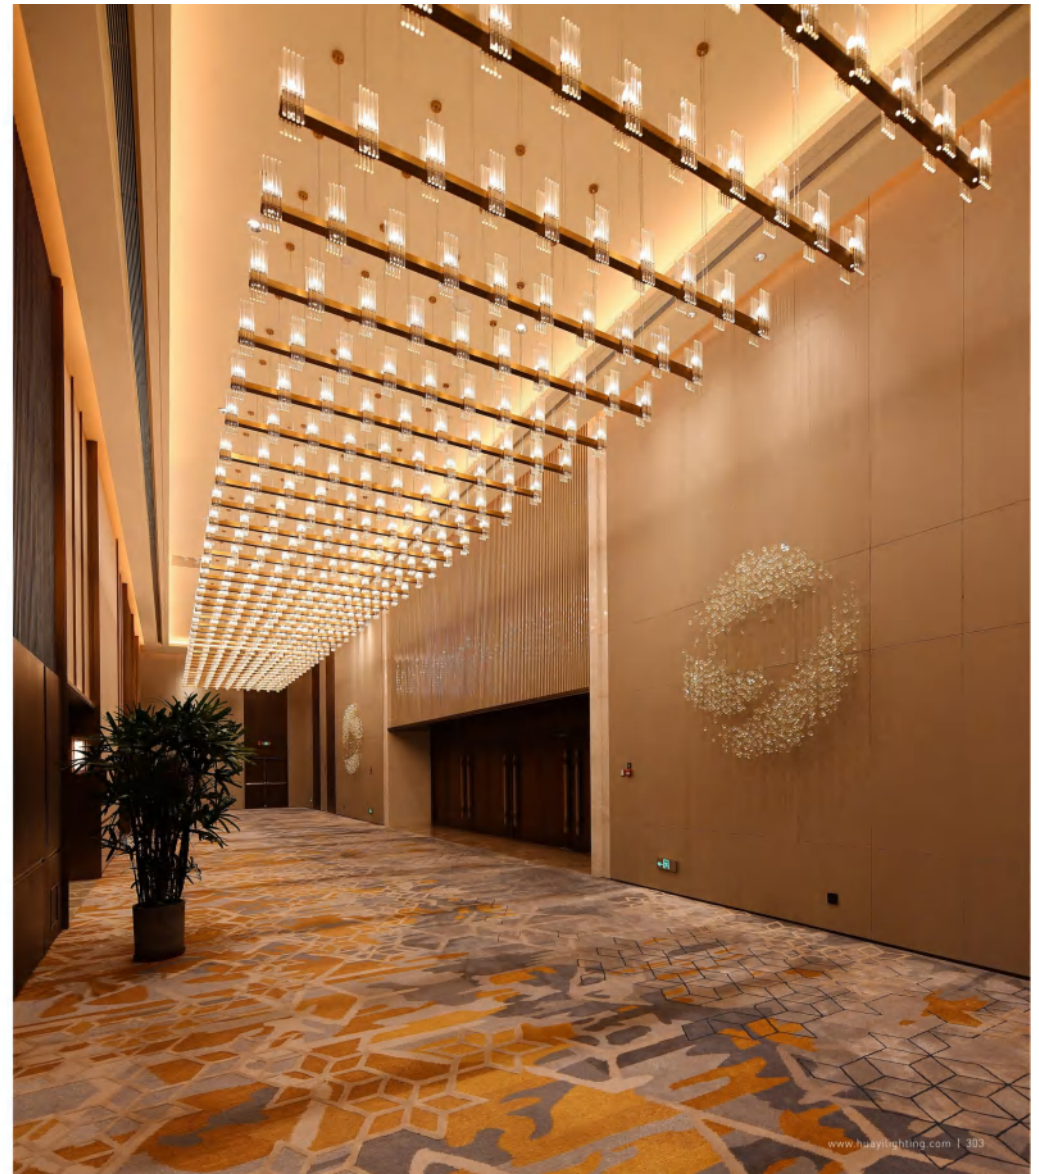

The multi-function hall takes "letting the light speak by itself" as its theme. When the light is on, the beam goes down from the top. It can not only illuminate the brightness of the multi-function hall, but also build multi-dimensional space. Vertical and horizontal lines can easily create visual focus and show the details of the design.

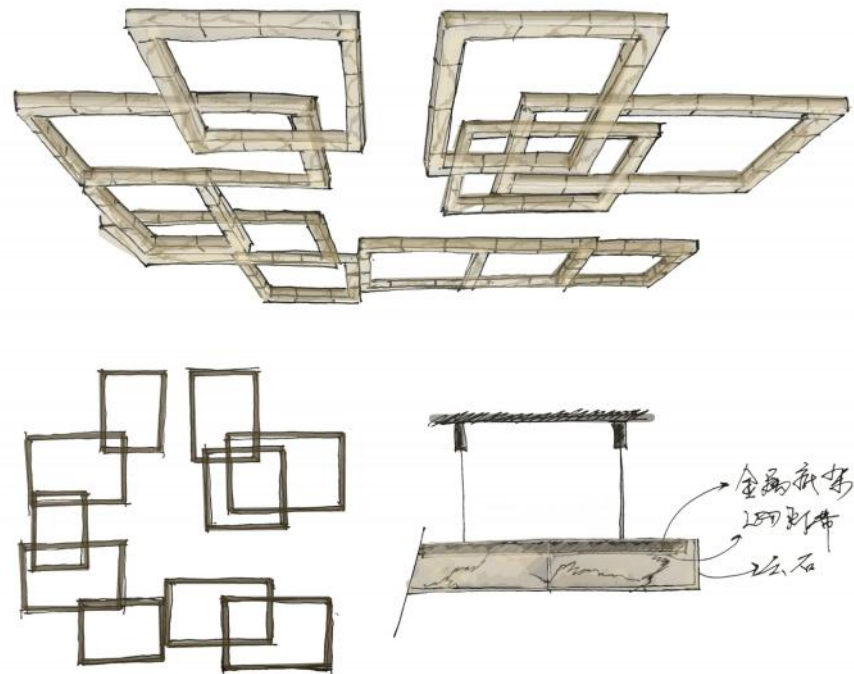

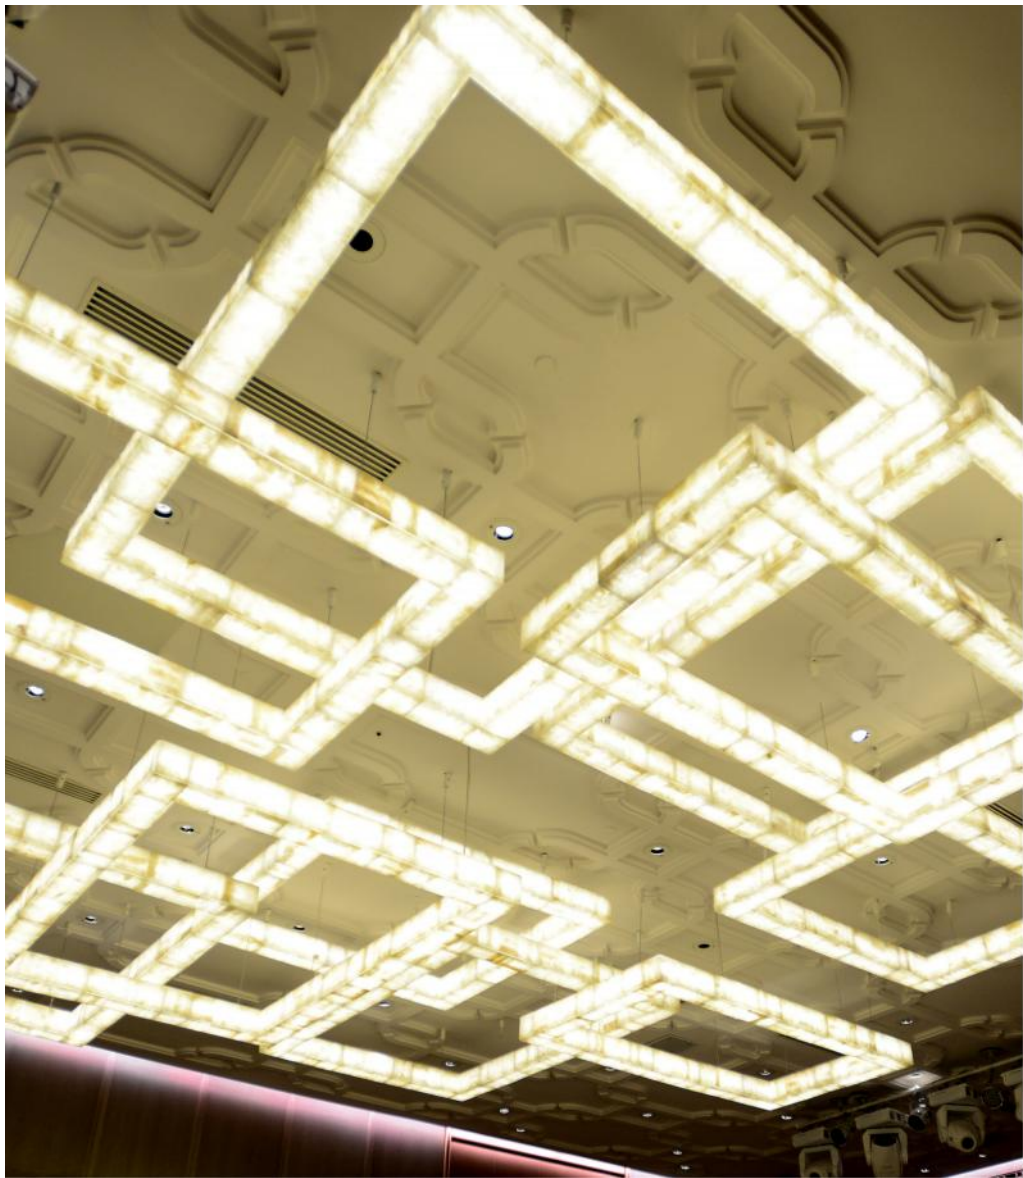

DESIGN CONCEPT | 设计理念

水晶玻璃可以很好地散发光线，放大走廊的空间，增强开阔感。43组吊灯的整齐排列，除了维持空间的通透性，也让明亮的光线能弥漫整个走廊。经由走廊转换心情，每一次穿越都是愉悦的体验。

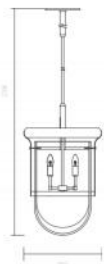

Crystal glass can emit light very well, enlarge the corridor space and enhance the sense of openness. 43 groups of chandeliers are arranged neatly. In addition to maintain the penetrability of space, they can also make the bright light permeate the corridor. When walking through the corridor, people change their moods, and every crossing is a joyful experience.

RECEPTION AREA

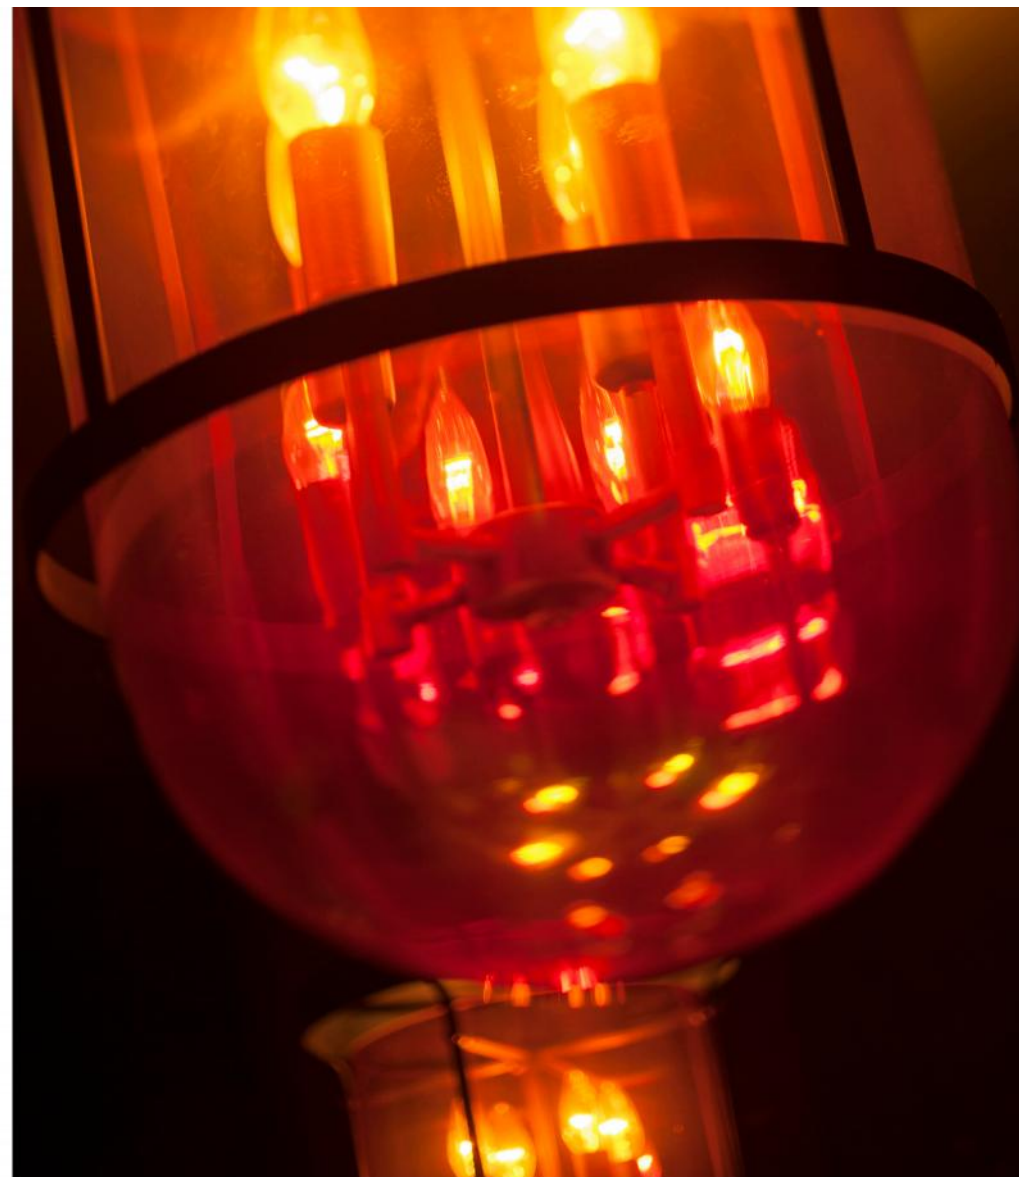

接待台

DESIGN CONCEPT | 设计理念

接待区的色温应同室内入口处相同，这样不但是与入口相呼应，更重要的是结合接待人员热情的服务，更容易给客人留下美好印象。在整体大堂环境中显得非常亮，这也可以突出此区域的重要性。

The color temperature of the reception area should be the same as that of the indoor entrance, which is good to combine with the hospitality and warm service of receptionists, and it is more likely to leave a good impression on guests. It is very bright in the whole lobby environment, which can also highlight the importance of this area.

DESIGN CONCEPT | 设计理念

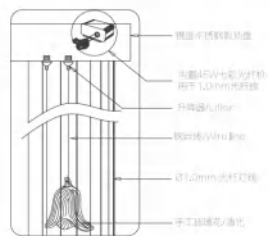

照明系统与背景建筑的融合，在华艺照明工程设计中随处可见。譬如在点餐台的重点照明区域，其灯具形态与穹顶的木质结构相得益彰，毫无违和感。

The integration of lighting systems and architectural background is ubiquitous in Huayi lighting's design. For example, in the key dining table area, the shape of the lamp and the wood structure of the dome complement each other. It is without any sense of violation.

DESIGN CONCEPT | 设计理念

设计灵感来源于“有限”和“无限”的空间再利用。设计师通过三维空间对视觉冲击的交织与辉映，将超现代的设计元素巧妙融合在宏伟的酒店气势中，细节间彰显华艺对灯光触影的应用能力。

Inspired by the reuse of "limited" and "infinite" space, designers make the ultra-modern design elements smartly integrated with the magnificent momentum of the hotel through the impact of three-dimensional space on visual striking. Their working details highlight HUAYT's ability to the application of light.

DESIGN CONCEPT | 设计理念

简约成为公共区域设计考虑的关键词。设计师以晶莹剔透的水晶玻璃珠条为主体，由点及线，织线成网，每个小珠条忽闪着如一个个跳跃的音符，谱写着一曲曲悠扬而静雅乐章，给宾客带来了轻松自在的漫游意境。

"Simplicity" has become the key word considered in designing public areas. Designers put crystal grass strips as the main body, from point to line, line to a net. Each strip seems like a jumping note, singing a melodious and peaceful song, which makes guests feel relaxed and comfortable.

结合酒店挑高的楼层，设计师采用流线型的水晶吊灯，辅以适度的明暗变化，层层的光韵营造出错落有致的小山丘灯光氛围。

Aiming at the hotel on high-rise floors, designer chooses to adopt streamlined crystal chandeliers, supplemented by moderate changes of brightness to create a patchwork of light atmosphere like in a hill. The whole fixture floats like silk belt, adding extravagance and vivid atmosphere to the hotel.

DESIGN CONCEPT | 设计理念

灯光照度是会议室的基本必要条件。摄像机均有自动彩色均衡电路,能够提供真正自然的色彩,从窗户外射入的光(色温约5800K)比日光灯(3700K)或三基色灯(3200K)偏高。

Lighting illuminance is a basic requirement for meeting rooms. The camera's automatic color equalization circuit provides really natural color. The color temperature of light from the window (about 5800K) is higher than that of fluorescent light (3700K) and tri-color phosphor (3200K). If there are two light sources in the room, a video image with a blue projection and a red shadow area will be produced.

Peony is the king of flowers, which means completeness and wealth in ancient times. Handcrafted hanging crystals have bright faces and are fascinating, which are decorated into the shape of peony in the Eight- Diagram ceiling, meaning good governance and harmonious people.

DESIGN CONCEPT | 设计理念

面对较大的中餐厅甚至是宴会厅，在灯具照明手法处理上可采用多种照明迂回结合，并且适当利用隐藏型小射灯直接投射，其灯体颜色与天花浑然一体，光源的高显色性可另菜肴色泽饱满。

Compared with large Chinese restaurants and banquet halls, we can use a variety of lighting methods and properly adjust hidden small spotlights lighting directly when dealing with lighting problems. Their colour integrates with the ceiling perfectly, and lights 'high colour rendering makes dishes more delicious.

DESIGN CONCEPT | 设计理念

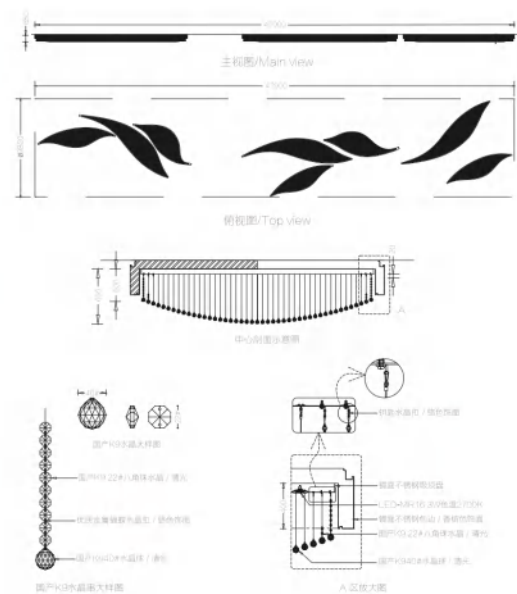

大堂的花灯设计源自皎洁的月亮，低调间诠释奢华大气，简约中尽显华的至臻。

Shanghai is known as "Oriental Paris". Huayi helps Inter-Continental Hotel to express Shanghai's local style. The lighting of the lobby is inspired by the moon, which is low-key and luxurious, simple and charming.

BANQUET HALL | 宴会厅

还未步入宴会厅，走廊过道就已让人充满期待，灯光柔和清雅，椰叶型的花灯按照水流式的布局安装，暖光源的情景照明模式使空间开阔。

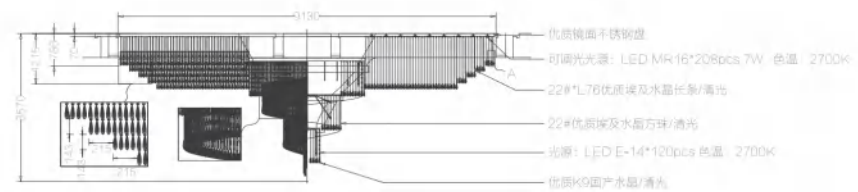

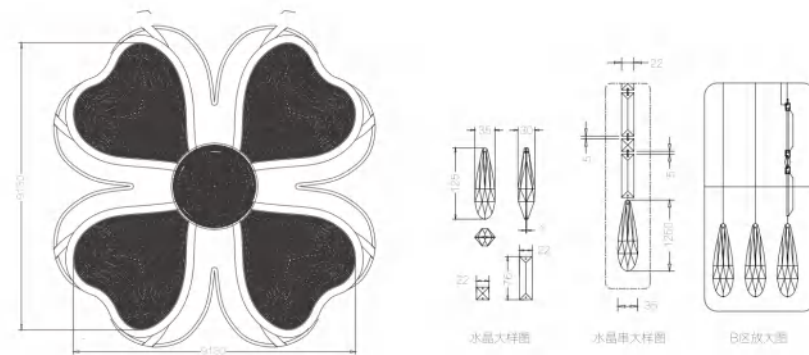

The corridor light feels soft and elegant. Blade shape chandelier makes the space more spacious.

BANQUET HALL | 宴会厅

宾客踩着棕梳图案特制酒店地毯，步入了气势恢宏的无柱式宴会厅。宴会厅以金色为主色调，花灯以“四叶草”为原型的超大水晶吊灯，在“四叶草”的基础上，巧妙引入贯穿于上海西部的古运河特色，突出中国传统对水的理解：财富与好运。

Guests step into the grand astylar banquet hall with their feet on the palm-patterned carpet. The hall uses golden color as the dominant hue, whose flower lamps that use the four-leaf clover as their prototype. Besides, designers smartly apply the features of ancient canal of western Shanghai to highlight the traditional understanding of water: wealth and fortune.

DESIGN CONCEPT | 设计理念

所谓伊人，在水一方：娟娟静立，韵味东方。宴会厅的灯饰造型以水为引，晶莹的水晶拱式交错，如碧波荡漾的湖面，仿佛你轻轻走进，也会泛起一圈圈的涟漪，打造成“在水一方”的韵味。

The lady who is so-called that person, is at another side of the river, showing the oriental charm. The shape of lights in the banquet hall is inspired by water, and pendulous crystals shine as surface of the lake ripples. It seems that when you went into the hall, there were circles of ripples, creating a unique atmosphere of "standing at another side of the river".

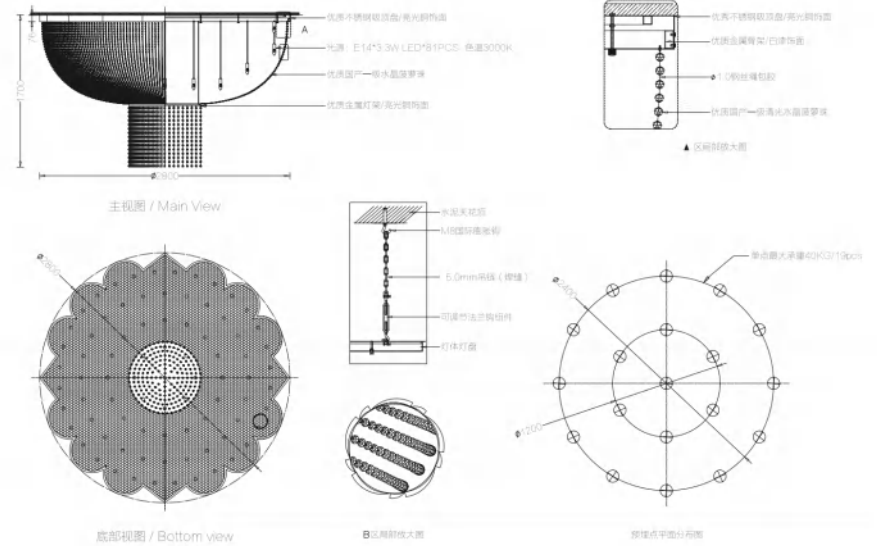

DESIGN CONCEPT | 设计理念

另一边宴会厅以透明扭纹玻璃管与菠萝珠为主材料设计。配以柔和的光源，落花归燕，风雅又显几分古朴，诠释现代中式文化的淡雅之美。

Another banquet hall uses clear twisting glass rods and pineapple beads as major designing materials. Together with the soft lighting, the hall looks grace and a little old, showing the elegant beauty of modern Chinese culture.

DESIGN CONCEPT | 设计理念

设计师结合酒店的“新中式”装修风格，运用典雅、传统、规矩中又凸显个性的照明手法来表现中式照明环境。暖黄色的灯光散射至充满古典气息的红木家具上，将大气包容的文化底蕴表达得淋漓尽致。

Combined with the “new Chinese” style of decoration of the hotel, our designers apply the elegant, traditional, regular and individual lighting method to present the Chinese lighting environment. Yellow lighting scatters at the redwood furniture, which conveys our tolerant culture incisively and vividly.

设计师以“历久弥新”作为表达诉求,在灯饰设计上既整体符合装修风格特色但又不过于呆板,在保持其固有的鲜明特色与卓越品质之外,更将创新、艺术与美学融入其中。

DESIGN CONCEPT | 设计理念

设计师的灵感来源于“星星”，天花板上通过大面积错落有致地排列着的细小吊灯，打造了一幅星河满斗的画面，极具创意的灯光设计，让整个酒店更具浪漫情怀。

Taking inspiration from stars, designers use a large area of well-proportioned small droplights to create a vast Milky Way. Such creative lighting design make the hotel look more romantic.
